## RESEARCH INTERESTS

I am interested in Machine Learning, EDA, VLSI design. My current focuses include:

- Machine Learning in VLSI Design.
- Reinforcement learning, computer vision.

## EDUCATION

**The Chinese University of Hong Kong**  
**Ph.D. in Computer Science**  
• Advisor: Prof. Bei Yu

Hong Kong  
Nov 2021 – Present

**The Chinese University of Hong Kong**  
**M.Sc. in Computer Science**  
• Advisor: Prof. Bei Yu

Hong Kong  
Sep 2019 – Nov 2020

**Huazhong University of Science and Technology**  
**Bachelor of Computer Science**

Wuhan, China  
Sep 2015 – Jun 2019

## RELEVANT WORKING EXPERIENCE AWARDS

**Tencent Technology Co.Ltd.**  
**Research Intern**

SHENZHEN, China  
May 2018 – Nov 2018

### Scholarship

- Distinguished Academic Performance Scholarship, CUHK. May 2020
- National Encouragement Scholarship, HUST, Ministry of Education, PRC. Nov 2016
- First Class Scholarship, HUST, the highest scholarship in HUST. 2018, 2019

### Internship

- First Prize, Tencent SNG Hack Week. Jun 2019
- Excellent Intern, Tencent. Sep 2019

## PROJECTS

**DAMO** : Towards High Accuracy DL-Based OPC With Deep Lithography Simulator. This paper present a novel method for Deep Learning based OPC which results surpass the famous OPC tool Mentor Calibre. The manuscript was accepted by ICCAD2020.

**CUDA-OPC** : This is a CUDA acceleration project that aims to improve the ILT computation efficiency, it speeds up the lithography process nearly 40 times than before.

## SKILLS

**Programming** C/C++, Python, Ruby, Matlab,  $\text{\LaTeX}$ , Bash, Javascript, Rust, Java

**Machine Learning** Skilled in Pytorch, Tensorflow, and CUDA programming.

**Tools** Vim, Git, macOS, Linux

## TALKS

1. CUDA based Convolution and FFT on OPC. *CUDA Group Presentation.*, CUHK. Mar 2020
2. DLS-DMO: High Accuracy DL-Based OPC With DLS. *CUDA Group Presentation.*, CUHK. May 2020
